# SMOOTHWALL MONITOR

Smoothwall Monitor is a powerful real-time safeguarding tool designed to help schools and organizations protect individuals from online risks. It actively monitors digital activity, including web searches, social media, and messaging, identifying potential threats like cyberbullying, radicalization, or mental health concerns. Using advanced keyword detection and contextual analysis, Smoothwall Monitor alerts designated staff when concerning behavior is detected, enabling swift intervention. It supports compliance with safeguarding regulations, promotes a safe digital environment, and is easy to integrate with existing systems. Smoothwall Monitor empowers educators and administrators to prioritize well-being and digital safety effectively.
